

ICESAFE RAPID CLEAR

Plater Chemicals are proud to offer the new formulated IceSafe Rapid Clear.

After research and development work with our long established partners in Poland we are able to supply a blend of 70% Sodium Chloride : 30% Calcium Chloride Flake for use in de-icing and the prevention of glazed frost.

In response of the unprecedented low temperatures experienced in recent years, Plater Chemicals are able to provide a next day service for Icesafe Rapid Clear in 25kg plastic bags, packed 1 tonne per pallet all stored at our new distribution warehouse at the port of Goole, East Yorkshire.
